

SHOTLIST				V3.0 27.04.2025												
				Info (Ball): prelight all studio interiors (3-4h) - exterior setup every shoot day will be 1h, light refinements after cam is setup usually will be 5 min, cam move or lens swaps also 5 - some shots without talent will be MOS					Setup info: all shots with 1.x have the ext light on the walkway, all with 2.x have lights that are coming from high risers in the courtyard.							
1	2	SCENE		SLATE	FLAG	TIME		DESCRIPTION	STORYBOARD	Notes on Storyboard	PAGES	SETUP CAM	SETUP LIGHT	LENS	LIGHT / SFX	QUESTIONS / TASKS / NOTES
3	1	IN./EXT.	Location var.	Can be shot at		Prep	SHOOT TIME									
4	1	INT./EXT.						JONAS hustles to the tram and misses it of screen. We establish the location and an ominous presence, a predator has awoken, ready to go on his hunt.						Zoom		
				NIGHT												
										wider in the beginning, covering same area, we zoom in when he leaves the frame	3/8	1		1.1 Zoom		ACCESS TO OPPOSING ROOM NEEDED (DAY 1)
5				NIGHT	1AA		10	Jonas is doing his work, he stands up, packs stuff, locks the door and runs for the tram until of screen, when of screen slowly go into a zoom and pan frame right								
										further back, pushing through the doorway, zooming to the door		2		1.2 Zoom		
				DUSK	1TAA		15	slow zoom towards looked door (sound design of tram ringing and going driving away)								
	2	EXT.	var.		1TAB		15	5 slow zoom towards looked door (silence)		as is, zoom in quite a bit.		3		1.2 Zoom		If needed this shot could be done as a day shot, but we'd need to frost out the upper window and place a small light behind the motion which will take about 15 minutes more setup time. Change to this version at own discretion.
				NIGHT												
										cam will be placed further right and back on a longer focal length	1/8	4		1.3 Zoom		ACCESS TO OPPOSING ROOM NEEDED (DAY 1) Light needs time to setup big stand with diff frame in front for edgelight down in the the courtyard. Light needs to prepare for the lighting cue of the "opposite widow"
				DUSK	2A		15	Jonas comes and lit the cigarette and starts smoking Suddenly his lighter falls and he goes downstairs, the The front window lights up, hold shot until he left frame and cue the window during the shot								
				NIGHT	2BAA		15	Jonas realises the window is lit now, stands up, and exits the frame		CHANGED: shot from "opposite window", zoom in ever so slightly	1/8	1		1.4 Zoom		ACCESS TO OPPOSING ROOM NEEDED (DAY 1) Light needs time to setup the key light upstairs through a 4x4, extend windowlight on the foreground. It's not advisable to shoot this shot same day as 2A as we'd need to wrap out the stand from down stairs as well as bring in the upstairs lights. add 10 minutes setup time if shot chronologically.
					2BAB		15	Jonas enters the frame, knocks the door, no one answers, he takes A picture from the window, he walks towards the red studio door.		REPLACE BY SHOT THROUGH HIS OFFICE WINDOW SIMILAR TO 2A BUT WITHOUT FORGROUND	1/8	4		1.5 Zoom		ACCESS TO OPPOSING ROOM NEEDED (DAY 1) shoot after 2A, put skynpanel on the high riser for moon light.
3	INT.	var.						Jonas gets back to the studio, not quite realizing the severity of his situation and continues to work just to be interrupted by the mold knocking on his door.								
				NIGHT	SHOT 7 CANCELED	BACKUP		SHOT 7 WILL NOLONGER BE NEEDED.		actions will be picked up by 3BAA and					Haze	
				NIGHT												
											1/8	3		1.6 Zoom	Haze	
				NIGHT	3BAA		15	Jonas enters the studio, realises the door was not locked, Jonas searches around to see everything's alright, he closes the door		CHANGED: This framing will be a bit closer to SHOT 7 that was removed but further back, we cover all actions also covered by 3BAA and continue with the noted actions. zoom in	1/8	6		2 Zoom	Haze	
				DAY	3AA		20	Jonas searches around to see everything's alright, he closes the door, Jonas sits behind his desk and starts working, camera starts Slowly pushing toward him								
				NIGHT	3BC		20	15 Jonas is working, camera slowly zooming in		CHANGED: opposite shooting direction, way closer framing, zoom in		8		2.1 Zoom	Haze	dressing needs to be slightly shifted, a mirror might be necessary for the angle to be achieved. CHECK with directors if this will be held until 3BGA, in my opinion we could go fully POV for that whole segment.
					3XLA		10	5 Jonas is working; we see his job is image restoration, stops working, Stares at the front window		CHANGED: opposite shooting direction, closer framing, zoom in (alt. without zoom), coverage same as 3BC	1/8	7	2.x	Zoom	Haze	
				NIGHT												
					3ZM		10	20 POV, Jonas is dreaming, camera slowly moves forward, leans down, up again, Whip pan to the left on sound cue at door sound		cam zooms in, focus shift to window glass and back to background again, then drops down, whip pan to door.		9		2 Zoom		ACCESS TO OPPOSING ROOM NEEDED (DAY 1) remove table for camera to get into position!

			DAY													
			DAY	3BGA	NO TALENT NEEDED	15	10	include his movement over! Jonas shouts, no answer Cont. Jonas shouts again, hitting the door again	opt. with slight zoom out	1/8	10	2.2	Zoom	Haze	possible as a day shot with additional 20 minutes of setup time	
				3XC		10	5	no answer, just hitting the door				11	2.x	Zoom		
4. INT.	var.							Jonas wakes up and tries to capture the mold.								
			DAY													
				4BGA		0	10	with a jump cut Jonas wakes up, Jonas has e different situation, the phone rings (eyeline)	same as 3BGA but without zoom in.	1/8	10	2.2	Zoom	Haze	possible as a day shot with additional 20 minutes of setup time	
			NIGHT													
				4XLA		10	5	Jonas picks up his phone	POV style framing on relatively long focal length		9	2.x	Zoom		possible as a day shot with additional 10 minutes of setup time or reuses the light on 3BGA / 4BGA	
			DAY													
			DAY	4BEA		10	10	Jonas goes to kitchen for signal and talks to peter	CHANGE: framed far further camera left, starting in a close up, letting him cross , panning to lose him	1/8	8	2.3	Zoom	Haze	possible as a day shot with additional 20 minutes of setup time (5 min additional to 3BGA / 4BGA)	
			DAY													
			NIGHT	4XD		10	5	Insert shot cellphone no signal	coverage TBD	X	2.x	Zoom				
																
			NIGHT	4BC		15	15	talking to paul,	slightly wider, including the door frames		12	3	Zoom	Haze	if this is gonna be the only shot of the kitchen in this direction we should absolutely shoot this one at night or in blue hour otherwise so we save some time on the windowtreatment	
																
			NIGHT					connect walk in from kitchen, hanging up the phone. Jonas stares to the opposite window. Jonas assembles the tripod. keep rolling throughout scene, including the shadow appearing.	slightly adjusted framing		6	2.4	Zoom	Haze	ACCESS TO OPPOSING ROOM NEEDED (DAY 1)	
			DAY	4CL		10	30									
				4BCA	NO TALENT NEEDED	10	15	Jonas reaction the the lit window	wider lens, closer at subject, massive headspace. same coverage as 4CL		8	2.3	20mm	Haze	would be possible as a day shot but tough on the actor -> let's not...	
			NIGHT													
				4XX	NO TALENT NEEDED	10	30	POV through viewfinder, all variations, light on and off, shadow, settings.	highly likely the framing will be wildly different to get it to work properly, angly as is.		13	1.7	Zoom	Haze	ACCESS TO OPPOSING ROOM NEEDED (DAY 1) also absorbs shot 49 and 53, 57 and 60&64	
			NIGHT													
				4XX		5	10	SAME,BUT: Shadow appears, viewfinder shot	same		13	1.7	Zoom	Haze		
			DAY													
				4XZ		10	15	Jonas places his hand on the camera, ready to shoot this shot also contains a series of shot sizes on pressing the trigger that are slightly varied to the other shots.	series of shots handling the camera, TBD on the day, shooting direction kitchen wall		14	2.x	Zoom	Haze	also absorbs shots 48, 49,50,52,54, 59&61&63&65	
			DAY													
				4BCB		10	10	-Jonas brings his head up to look at the window, then he goes down again	more headspace, potentially even closer.		8	2.3	20mm	Haze
